

"A SENSE-ATIONAL SUMMER" AT CAMP CORNERSTONE 2025

Join us at Camp Cornerstone for Season 2 of an adventure your child will not soon forget. This summer, we will have a fun-filled, messy time as we explore our senses through a variety of themes and activities that will be loaded with fun! We are offering programs for Preschool (1-year-olds who are walking through 4-year-olds) and Elementary (Rising Transitional Kindergarten-5th grade) students. The camp runs for five weeks - 3 weeks in June & 2 weeks in July - Monday through Thursday, 9:00 am to 1:00 pm. There is a one-time, non-refundable registration fee of \$25.00. Each week of camp is \$100.00. To register, visit tinyurl.com/campcs25. The dates for camp are:

June 9-12: Nosey Adventures (Smell)

Our summer at Cornerstone will start with lots of adventures exploring the big outdoors. What will we see and experience? Most importantly what will we smell? Lots of fun is sure to be had! Activities and crafts will center around exploring our use of smell and enjoying nature walks, scavenger hunts, and other exploratory activities. Along the way, we will talk about Shadrack, Meshack, and Abednego and the adventure they had in the "fiery" furnace. All our discussions will center around the faith and trust that they had, even at a time that they had no idea what would happen.

June 16-19: Ooey, Gooley (Touch)

From slime to playdough and much, much more, we will go on a thrilling adventure as we explore anything "Ooey" and "Gooley." There is no doubt that our hands will discover many different textures and some good messes will be created. At the same time, we will talk about Samson. We won't be cutting our hair! However, we will discover what made Samson so strong and how his faithfulness and trust in God is how he got out of the big mess he created.

June 23-26: Culinary Creations (Taste)

Who doesn't like to spend some time in the kitchen? Better yet, let's bring the kitchen to summer camp and see what all we can make and do with food that may or may not involve the kitchen! As we explore food, we will also be reminded of Daniel, who had such faith and trust in God that he refused to eat the food of the Babylonians.

July 7-10: Music Makers (Hear)

Everybody loves music! This week will be filled with lots of joy and laughter as we explore and listen to music and investigate different types of instruments that may or may not be conventional. We will also be reminded of how Joshua put all his faith in God as he marched around the city of Jericho, and then, with the sound of trumpets and a shout, the walls came tumbling down.

July 21-24: Science Expeditions (See)

Our summer will wind-up with a focus on watching and observing a variety of science experiments to tweak our imagination and get us exploring the world God created through science. At the same time, we will learn that sometimes, things can't be explained using science; we just have to have faith. That is exactly what Gideon had. With a small army - from 32,000 men to 300 men, jars, torches, and trumpets - they defeated the Midiannites. No cool science was involved, just some simple objects and his faith in God.
